Orthopaedic Product Catalogue

SILICONE HEEL CUPS

PF-446

PRODUCT FEATURE:

- Silicone heel cups, with a softer area providing heel cushioning
- Available in pairs

SIZING:

Small	No. 34 – 37
Medium	No. 38 – 41
Large	No. 42 – 45

SILICONE INSOLES

PF-444

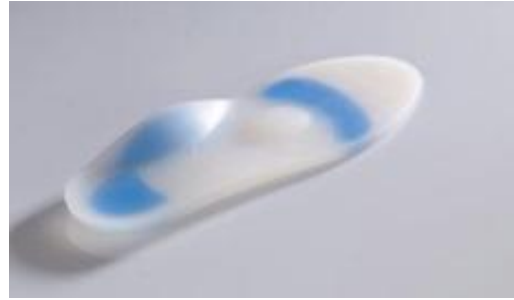

PRODUCT FEATURE:

- Full length silicone insole with a softer area in the ball of the foot and the heel area.
- Relieving heel pain and improving stability by distributing pressure away from stress points.
- Pressure is distributed over the plantar surface
- Available in pairs

SIZING:

X-Small	No. 35 – 36
Small	No. 37 - 38
Medium	No. 39 - 40
Large	No. 41 – 42
X-Large	No. 43 – 44
XX-Large	No. 45 - 46

SILICONE ARCH SUPPORT INSOLE

PF-445

PRODUCT FEATURE:

- Full length silicone insole with a softer area in the ball of the foot and the heel area.
- Relieving heel pain and improving stability by distributing pressure away from stress points.
- Pressure is distributed over the plantar surface
- Metatarsal raise
- Available in pairs

SIZING:

X-Small	No. 35 – 36
Small	No. 37 - 38
Medium	No. 39 - 40
Large	No. 41 – 42
X-Large	No. 43 – 44
XX-Large	No. 45 - 46

STARFLEX INSOLE

PF-449

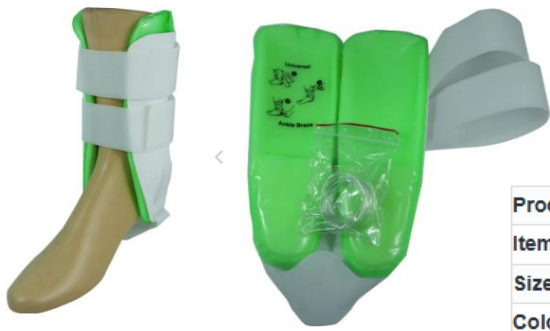

PRODUCT FEATURE:

- Made of thermoplastic material.
- Provides a balanced distribution of the body load, reducing the load on the joints.

SIZING:

Size 35 - 44

ANKLE BRACE (SEMI RIGID)

Product Namea	Airfoam Stirrup Ankle Support Brace with pump , fit both left and right foots
Item No.	30101-30103
Size	S , M , L
Color	White or customized color
Certificate	FDA , CE
Material	Plastic shell , PVC film with foam , Hook and Loop , Pumpt and Valve
Packing	Polybag per item into one carton

PRODUCT FEATURE:

- Commonly worn immediately after an ankle injury and throughout recovery; Low-profile structure allows for minimal bulk while wearing shoes
- Intended to prevent or treat acute ankle injuries, chronic instability, post-operative use and ankle sprains grade I, II, and III
- Rigid, anatomically designed shells are lined with airfoam cells, which help stabilize and protect the ankle
- Pre-inflated air cells provide pulsating compression while walking, enhance circulation and reduce swelling and edema
- Air-Stirrup Ankle Support Brace resists inversion more than taping, yet normal flexion is virtually unrestricted
- Semi-rigid, anatomically designed shells which help stabilize and protect the ankle. These shells are lined with air cells that enhance circulation and reduce swelling and edema. The air cells are pre-inflated and provide pulsating compression while walking, helping accelerate rehabilitation.
- This ankle support brace has a low-profile structure, allowing for minimal bulk while wearing shoes.
- Designed for acute ankle injuries, post-op uses and ankle sprains of any grade
- Treat or prevent further injury
- Built for ankle stability
- Universal design to fit either foot
- Adjustable, padded air cushion offers superior support, comfort and compression that can be adjusted by adding or releasing air.
- Great use for the following conditions: Post operative stabilization of ankle, acute sports injuries, strains, mild to moderate sprains, injury prevention.

SIZING:

Small, Medium, Large

LACE UP ANKLE BRACE

Product Name	Lightweight Lace-up Ankle Brace For Sport , Injury Recovery And Sprain
Item No.	32201-32206
Size	XS , S , M , L , XL , XXL
Color	Black or customized color
Certificate	FDA , CE
Material	Plastic Insert , Canvas , Hook and Loop , Lace
Packing	Polybag per item into one carton

PRODUCT FEATURE:

- Designed to meet the needs of demanding athletes everywhere, treating acute ankle ligament sprains and chronic instabilities
- A lightweight, low-profile design allows this ankle support brace to easily fit inside your shoe
- Features a sturdy canvas stirrup and a reinforced eyelet area for outstanding performance and durability, this locks the calcaneus (heel bone) into place and controls inversion/eversion.
- Removable plastic medial/lateral insert enhance proprioception (body position awareness) and stability
- Universal fit allows the Lace-Up Ankle Support Brace to be worn on either the left or right foot
- Ankle Brace is recommended to help support weak or injured ankles during soccer, running, wrestling, racquet sports, gymnastics, and cheerleading.
- The high-cut front with an extra low profile means you can keep your touch while maintaining flexibility, speed, and comfort.
- Provides Excellent Support for Sprained or Weak Ankles While Helping to Prevent Further Injuries
- Made with high quality, very durable double layered nylon for superior strength.
- Lateral plastic palettes (that can be easily removed for preferred use) on both sides help to provide support and lateral stability while allowing a full range of movement.
- This lightweight ankle combines the compression and comfort of a soft ankle brace with the rigid stability that mirror stirrup technique. It can be worn after an acute ankle sprain or as a preventative product to protect against repeat ankle sprains during athletic activities.

SIZING:

X-Small, Small, Medium, Large, X-Large, XX- Large

ELASTIC ANKLE GUARD

PF-558

PRODUCT FEATURE:

- Elastic knit conforming to the ankle and foot allowing for targeted, contoured compression for strains, sprains and stress injuries
- Latex free, breathable fabric.

SIZING:

Small	20 – 21 cm
Medium	21 – 22 cm
Large	23 – 24 cm
X-Large	24 – 25 cm

ANKLE FOOT ORTHOSIS (AFO)

Product Name	Ankle Foot Orthosis Support , Lightweight AFO Drop Foot Brace
Item No.	20211-20214
Size	S/M , L/XL , Left , Right
Color	White or customized color
Certificate	FDA , CE
Material	Plastic shell , Polyester Velvet coating with foam , Hook and Loop
Packing	Polybag per item into one carton

PRODUCT FEATURE:

- Lightweight and Flexible
- Injected Molded Polypropylene
- Provide ankle and Joint Stability
- Easily Trimmable foot plate for a perfect fit
- To support the ankle, aid in foot drop cord tightness and to support the foot in a proper position. Promotes dorsiflexion movement and extension between the ankle and foot
- Lightweight materials with polypropylene plastic and the shape of "L" to provide rigidity
- Attach to the calf with a strap, and are made to fit inside accommodative shoes
- Thinner footplate that may be trimmed with a pair of ordinary scissors
- A heat gun may be used to further form the splint If desired. The low arch and open heel give this splint a streamlined profile that fits easily into any shoe.
- Made to provide static dorsiflexion, along with lateral stability.
- Allows for elasticity at the Achilles heel level, permitting plantar flexion or dorsal flexion whilst walking, preventing the foot from falling, especially in the balancing stage, and maintaining the foot at 90°.
- Solid AFO Drop Foot Brace for Ankle Mobility Aid for Dorsiflexion Movement, Medical Aid for Men and Women AFO is designed to provide increased dorsiflexion assist and greater medial-lateral control during ambulation for those patients suffering from drop foot. The Ankle Foot Orthosis (AFO) splint provides static dorsiflexion assistance and lateral stability for the foot-ankle area.

INDICATIONS:

In general, patients affected by dorsal flexion limitation of the foot. Hemiplegia through vascular-cerebral accidents or flaccid palsy. Retraction of the Achilles heel in infantile cerebral palsy. External popliteal sciatic nerve lesions. This orthosis is not for use in patents with varus or valgus deviations of the rear foot, and spastic palsy.

SIZING:

Small, Medium, Large, X-Large

MOONBOOT

Product Name	Tall Liner Walker Brace , Walking Fracture Boot , Ankle/Foot Stabilizer Boot
Item No.	70111-70114
Size	S , M , L , XL
Color	Black or customized color
Certificate	FDA , CE
Material	Plastic shell , Polyester Velvet coating with Foam , Hook and Loop
Packing	Polybag per item into one carton

PRODUCT FEATURE:

- Designed to increase stability following trauma or post-operative procedures including stress fractures of the lower leg and soft tissue injuries
- Cushioned inner and outer sole provides shock absorption which helps improve comfort during ambulation
- A low profile rocker bottom promotes a natural gait and reduces plantar pressure
- Features a soft liner design, constructed to ensure no seams are in critical post-surgical areas
- Universal fit allows the Walker Brace / Walking Boot to be worn on either the left or right foot
- Wide footbed provide a more comfortable fit and accommodate edema or bandages
- Malleable uprights for better fit and stabilization
- The soft liner is constructed to ensure no seams are in critical post-surgical areas. Swivelling D-rings allow for criss-cross or parallel strapping.
- Constructed with a multi strand polymer material for durability & weight reduction
- Crafted with contoured struts to provide the greatest surface area contact reducing pressure points
- Low profile design reduces bulk and allows for easy ambulation. Lightweight and easy adjustable.

INDICATIONS:

- Acute Ankle Sprains
- Swelling Management
- Soft Tissue Injuries
- Syndesmosis (High Ankle) Sprains
- Stress fracture of lower leg/ankle
- Forefoot/Mid Foot/Hind Foot Pain and Injury
- Stable Foot and/or Stable Ankle Fractures
- Post ORIF & Surgical Stabilization
- Post Tendon/Ligament Repairs
- Tarsal, Metatarsal & Phalange Fractures
- Post Bunion Surgery, Achilles Tendon Ruptures and/or Repairs

SIZING:

Small, Medium, Large, X-Large

KNEE BRACE OPEN PATELLA – PULL UP

Product Name	Neoprene Hinged Knee Brace
Item No.	82101-82106
Size	S , M , L , XL , XXL , XXXL
Color	Black or other customized color
Certificate	FDA , CE
Material	Neoprene , Aluminum Stay , Hook and Loop
Packing	Polybag per item into one carton

PRODUCT FEATURE:

- Two pull straps for better fit.
- High grade sports neoprene for therapeutic warmth and equal compression.
- Breathable latex-free neoprene material prevents skin irritation and retains heat.
- Open patella keeps kneecap in place and prevents slippage.
- Ideal for knee ligament tears, arthritis, sprains and chronic knee instability problems.
- Double Rings Hinged Locking Mechanism Designed to reinforce stability of knee brace on your knee and patella.
- EFFECTIVELY RELIEVES YOUR PAIN: Open-Patella design reduces stress and relieves pressure on the knee-joint during intense exercise and heavy usage. Also effectively relieves acute chronic knee pain from arthritis, strains, sprains, and fatigue. Ideal for post-surgery recovery or preventing sports injuries.
- COMFORTABLE WEARING: Made of high quality antibacterial breathable Neoprene. More soft and comfortable, offers uniform compression and perfect relief of patellar pressure. A contoured shape and adjustable flexible comfort straps offer a personalized fit.
- SUPER STRONG AND EXTENDED VELCRO: Ensure the most people fits the Knee Compression sleeve. Both left and right knees work.

KNEE BRACE OPEN PATELLA - FRONT / BACK WRAP AROUND

Product Name	Economy Hinged Knee Brace
Item No.	82301-82303
Size	S , M , L
Color	Black or other customized color
Certificate	FDA , CE
Material	Neoprene , Aluminum Stay , Hook and Loop
Packing	Polybag per item into one carton

PRODUCT FEATURE :

- Open patellar areas prevent bunching for greater comfort and compliance
- Knee brace with straps features an open patella with hinges moulded into the brace for low profile compression and support
- Wrap-on style accommodates leg shape variations and front contact closures allow for easy application and adjustment by wearer
- Open back eliminates bunching behind the knee. Fits both legs.
- ALUMINUM SUPPORT HINGES FOR LATERAL STABILITY: Hinges are located on both sides of the knee for added support. Can be removed if less support is needed. Improves medial and lateral stability, helping reduce injury and assist recovery of acl, mcl and patella injuries.
- INJURY SUPPORT: Compression material provides support to injured ligaments, tendons, joints, and muscles. ACL, MCL and patella support for strains, sprains, instability and patellar tracking.
- EXTRA STRENGTH FASTENERS: Prevents constant readjusting and allows you to customize the fit of the brace to your exact specifications. Top and bottom straps assure personalized fit.
- High grade sports neoprene for therapeutic warmth and equal compression.
- Breathable neoprene material prevents skin irritation and retains heat.
- Open patella keep kneecap in place and prevents slippage.
- Ideal for knee ligament tears, arthritis, sprains and chronic knee instability problems.

X-Large	42 – 46 cm

RANGE OF MOTION BRACE (ROM) SWEDISH KNEE CAGE

Product Name	Telescopic Post-Op Knee Brace
Item No.	87400-87401 for Red Aluminum, 87410-87411 for Gold
Size	Left , Right
Color	Gold or other customized color
Certificate	FDA , CE
Material	Neoprene Pad , Aluminum Stay , Plastic Part
Packing	Polybag per item into one carton

PRODUCT FEATURE:

- Universal and adjustable size
- It is made of aluminium bar with immobilization neoprene pad. Sticky cloth fastener straps insure comfortable fit and stabilization.
- Angle adjustment lock allows normal knee joint motion within a suitable range
- Suitable for both right and left legs, can be adjustable of length
- Hinge is quick setting and limits: Extension from 0° to 120°, flexion from 0° to 120°, Detachable, formable for increased stability.
- Help knee joint to regain its original functions or functional training for long-term rehabilitation.
- High-duty military aluminium alloy support is ductility and can be adjusted as individual demand.
- Stabilize the knee joint by four protective straps because of osteoarthritis caused by knee joint instability.
- Easy to use ROM hinge with quick-adjusting flexion and extension stops to control and limit knee flexion and extension
- Easy to use extension drop lock allows the brace to be locked out in 6 positions of knee extension with the push of a button
- Comfortable padding throughout the brace, designed with patient compliance in mind

COMMON EXAMPLES OF USE

SIZING:

Universal: Left or Right

TRUSS / INGUINAL HERNIA BELT

PF-002

PRODUCT FEATURE:

- Made of flexible cotton fabric.
- Anatomic pad and bandages designed to push back the herniated tissue.
- Used to prevent reoccurrences after surgery
- Provides support to prevent pain and discomfort.

INDICATIONS:

- Double-sided inguinal hernia

SIZING:

Small	75 - 90 cm
Medium	90 - 105 cm
Large	105 - 120 cm

ABDOMINAL BINDER

PF-602

PRODUCT FEATURE:

- Made of a flexible, breathable woven fabric.
- Supports the abdomen with a flexible structure.
- Adjustable to the desired tightness with velcro.
- May be worn under clothing.

INDICATIONS:

- Abdominal surgery and postnatal
- Abdominal sagging
- After umbilical and ventral hernia operations

SIZING:

Small	75 – 85 cm
Medium	80 – 95 cm
Large	95 – 105 cm
X-Large	105 – 115 cm
XX-Large	115 – 125 cm

LUMBAR SACRAL CORSET

PF-605

PRODUCT FEATURE:

- Made of a flexible, breathable woven fabric.
- Height of 32cm
- Supports the waist and lower back.
- Two plastic stays in the front and rear and 2 steel stays on the back of the spine.
- Additional stabilization is provided over the lumbar region by a cross band belt.
- Pain is reduced by reducing the load on the discs.

INDICATIONS:

- Immobilization before and after surgery
- Lumbago, degenerative disc lesions
- Acute or chronic low back pain.
- Spondylolisthesis.

SIZING:

Small	75 – 85 cm
Medium	80 – 95 cm
Large	95 – 105 cm
X-Large	105 – 115 cm
XX-Large	115 – 125 cm

ELBOW ROM BRACE

Product Name	Post-Op Single-Move Telescopic Elbow Brace , Hinged ROM Elbow Brace with Sling
Item No.	50351-50352
Size	Left , Right
Color	Black or customized color
Certificate	FDA , CE
Material	Polyester Fiber coating with foam , Hook and Loop , Aluminum Bar , Steel Hinge , Plastic Buckle
Packing	Polybag per item into one carton

PRODUCT FEATURE:

- Telescopic Elbow Brace offers extension adjustability between 0° and 90°, while flexion may be adjusted between 0° and 120° (ROM control in 10° increments)
- One Size Fits All (Unisex) - The adjustable wrist, forearm, and bicep straps make it easy to size to fit your specific arm. This is for the left arm only.
- Telescopic Length - Along with Velcro straps, each elbow brace features telescoping stabilizers to help you find the right stability and comfort level.
- Post Op and Injury Recovery - Designed specifically for elbow injuries, this brace is ideal for dislocations, epicondylitis, fractures, rom orthosis, and more.
- Easy to use extension drop lock allows the brace to be locked out at any angle with the push of a button
- It can be used for elbow dislocations, pre-operative and post-operative fixation, radial fractures, medial and lateral epicondylitis, post-op treatment of prosthesis and supporting the distal humerus.
- Ensure the flexibility of in the early stage. Enhance elbow joint activity to speed up the recovery. Activate muscle to stimulate the flow of blood because the allowed activity range is fixed. Lock the angle by simply pressing the button.
- Malleable struts can be contoured to fit varying arm sizes and shapes
- Detachable shoulder sling is included
- Made specifically for those who need better flexion and extension control, the fully adjustable design lets you control hinge settings, stabilizer length, and even strap tightness to fully support the elbow, forearm, and Humerus for better comfort and stability.

INDICATIONS:

- Stable fractures of the elbow, distal humerus, proximal radius or ulna
- Tendon and ligament injuries or repairs (Tommy John surgery, distal biceps tendon repair)
- Chronic elbow injuries
- Collateral ligament reconstructions
- Elbow hyperextension
- Range of motion control post injury
- Tennis elbow release
- Triceps tendon repair

SIZING:

Universal: Left or Right

ARM SLING

51301-51303

PRODUCT FEATURE:

- Made of mesh fabric.
- Humorous relaxes the shoulder joint and elbow.
- With waist strap to secure arm to the body.

INDICATIONS:

- Post-op immobilization.
- Shoulder/ arm support following injury

SIZING:

Small	30 – 33 cm
Medium	33 - 36 cm
Large	36 - 39 cm
X-Large	39 - 42 cm
XX-Large	42 - 45 cm

ELASTIC ELBOW GUARD

PF-304

PRODUCT FEATURE:

- Elastic knit conforming to the elbow allowing for targeted, contoured compression for strains, sprains and stress injuries
- Latex free, breathable fabric.

SIZING:

Small	22 - 26 cm
Medium	26 - 29 cm
Large	29 - 33 cm
X-Large	33 - 37 cm

WRIST SPLINT WITH THUMB PIECE

Product Name	Lightweight Thumb Spica with Malleable Aluminum Palmer Stay
Item No.	50601-50610
Size	XS , S , M , L , XL / Left , Right
Color	Black or customized color
Certificate	FDA , CE
Material	Polyester fabric coating with foam , Hook and Loop , Plastic Buckle , Aluminum bar
Packing	Polybag per item into one carton

PRODUCT FEATURE:

- Removable and adjustable palmar stay for maximum support
- Removable rigid thumb stay is adjustable for a custom fit
- Constructed of durable, breathable, padded material for maximum wear and comfort
- Loop and hook closure for easy adjustment
- Latex Free
- Velcro closures make it simple and easy to apply the brace with just one hand
- Made of comfortable, yet durable material which prevents any chafing or rubbing. Splint comes in a neutral black colour
- Soft and comfortable construction
- Unique stockinet liner is comfortable and easy slip-on application
- Holds the wrist in a neutral position and the thumb abducted to promote healing and minimize pain.
- Adjustable radial stays; removable palmar splint restricts wrist flexion; adjusts for varying degrees of support.
- Thumb strap adjusts to accommodate for swelling and various size thumbs.
- Durable lightweight urethane foam glove laminated to lycra. Soft lined interior is breathable and offers unparalleled wearing comfort. Three independent hook-and-loop fasteners permit easy one-handed adjustment and closure. Choose Left or Right hand options.
- An excellent choice to treat DeQuervain's Tendinitis, strains and sprains of the MCP joint, basal joint arthritis, advanced carpal tunnel syndrome and cumulative trauma disorders of the thumb and wrist.
- Designed to allow full functionality of the fingers the brace stabilizes the joints and wrist during the recovery process.

Small	Left or Right
Medium	Left or Right
Large	Left or Right
X-Large	Left or Right

WRIST SPLINT

Product Name	Adjustable Wrist Support Brace with Malleable Aluminum Palmer Stay
Item No.	50201-50210
Size	XS , S , M , L , XL / Left , Right
Color	Black or customized color
Certificate	FDA , CE
Material	Polyester fabric coating with foam , Hook and Loop , Plastic Buckle , Aluminum bar
Packing	Polybag per item into one carton

PRODUCT FEATURE:

- Intended for those suffering from sprains and strains, and for the treatment of Carpal Tunnel Syndrome (CTS)
- Durable and lightweight, making it ideal for daily movement and low-impact activities
- Includes a removable contoured aluminium palmer stay which helps control wrist flexion
- Velcro strapping helps provide an anatomically correct fit, ensuring proper support
- REMOVABLE SUPPORT BARS: It also can be used as soft ankle brace in the later stage. If you didn't feel comfortable, you can bend metal bar by yourself to fit your palm & wrist well.
- IDEAL FOR: Healing of sporting injuries or repetitive stress injuries. Helps to relieve pain and swelling, including surgery and sprains for wrist and forearm.
- SKIN-FRIENDLY: Made with high quality, extremely durable & comfortable material.
- Helps relieve pain and swelling associated with Carpal Tunnel Syndrome, Arthritis and Tendonitis.
- Lightweight and comfortable for all-day wear, and night use. Its breathable material allows moisture to release into the air for a cozy experience. The soft and latex-free fabric will ensure that there is no chafing involved while you are trying to get better.
- Supports weak or injured wrists while maintaining full range of movement of thumb and fingers. Great for relieving wrist pain, tingling, and numbness that might be hindering your daily life. Get back to your old self again in no time.
- Provides firm, yet comforting, support and protection for weak or post-cast wrists. The sleek design of our brace has no trouble fitting underneath your clothing, so you can begin the road to recovery at any point throughout your day.

COMPRESSION STOCKINGS: BELOW KNEE / ABOVE KNEE / PANTYHOSE – OPEN AND CLOSED TOE

PRODUCT FEATURE:

- Varicose stockings with a pressure profile and knitting quality area comfortable solution for varicose stockings with its high-quality textile surface and robust weaving.
- Apply a decreasing compression to the calf and upper leg, with the external pressure highest in the ankle. This increase in the blood flow by proving a uniform pressure distribution on the leg and foot.
- Above knee stockings feature silicone bands
- Open and Closed Toe
- Below Knee / Above Knee / Pantyhose / Maternity Pantyhose
- Class 1 (18-21mmHg), Class 2 (23-32 mmHg), Class 3 (34-46mmHg)

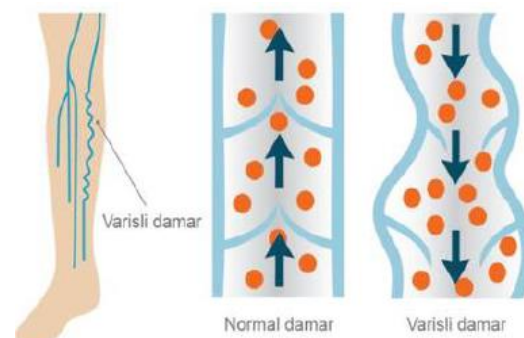

INDICATIONS:

Low pressure (18-21mmHg) and Medium Pressure (23-32 mmHg) varicose veins stockings

- Prevention on venous diseases during the recovery of ulcers.
- Post-traumatic swellings leading to expansion and loss of elasticity in the vein.
- Diabetic and rheumatism type diseases.
- Slight varicose veins not accompanied by edema and early onset of pregnancy

High pressure (30 – 46 mmHg) varicose veins stockings

- Significant varicose veins accompanied by edema
- Recovery period of sever and recurrent ulcers (after the ulcer has healed)
- Severe structural and post-thrombotic venous insufficiencies.
- Lymph edema treatment.

SIZING:

	Small	Medium	Large	X-Large	XX-Large	XXX-Large
Panti	44-50	47-55	50-58	53-62	55-65	58-68

Ankle	18-20	20-22	22-24	24-26	26-28	28-30

ANTI EMBOLISM: ABOVE KNEE / BELOW KNEE – OPEN AND CLOSED TOE

PRODUCT FEATURE:

- Clinically designed to promote venous return for prevention of thrombosis before, during and after surgery and for medical conditions requiring prolonged bed rest and before, during and after child birth.
- Anti-embolism stockings accelerate blood flow and reduce coagulation by applying constant pressure to the legs. The external pressure exerts a decreasing pressure towards the calf and upper leg, the highest in the ankle.
- Anti-slip silicone bands at the top of the stockings with high elasticity
- Open and Closed Toe
- Below Knee / Above Knee / Above knee with waist strap
- Class 1 (18-21mmHg), Class 2 (23-32 mmHg), Class 3 (34-46mmHg)

INDICATIONS:

- Graded pressure is applied which Increases the blood flow rate.
- Reduces the risk of deep vein thrombosis in immobilized patients, before and after surgery.
- Increased blood flow, in various vein disorders such as venous stasis.

CONTRA-INDICATIONS:

- Pulmonary edema due to severe arteriosclerosis and other ischemic vascular diseases.
- Cellulitis skin inflammation, Gangrene Fasciitis, Recent skin graft, Panniculitis.
- Pulmonary edema due to severe edema or subjective heart disease in the legs.
- Extreme deformity of the leg.

TEARDROP BREAST PROSTHESIS

PRODUCT FEATURE:

- For post-mastectomy or breast atrophy, the external breast prosthesis has weight, mobility and consistency similar to a healthy breast, making it a replica of a natural breast. Strengthening confidence and self-esteem, allowing the user to be comfortable in their daily activities.
- Hypoallergenic and durable, it does not change consistency or harden, maintaining its original characteristics and quality. Anatomical, comfortable and durable.
- Code: 1050
- Composition: 100% Silicone and Polyurethane.
- Colours: Brown and Flesh

RIGID NECK COLLAR

PRODUCT FEATURE:

Fully adjustable collar with for greater motion restriction by pivoting occipital panels adds an additional support.

Universal adjustable size.

INDICATIONS:

Decompression procedures

Whiplash injuries

Fracture management

Cervicogenic headaches

Cervical disc syndrome

Post-op stabilization

Musculoskeletal discomfort

Sprain / Strain injuries

Radiculopathy

SIZING:

Universal

PHILADELPHIA COLLAR

Product Name	Philadelphia Foam Cervical Collar with Tracheotomy Opening Hole
Item No.	40401-40403
Size	S , M , L
Color	Beige or customized color
Certificate	FDA , CE
Material	High Density Foam Material , Hook and Loop , Plastic Part
Packing	Polybag per item into one carton

PRODUCT FEATURE:

- Ventilation holes reduce heat and moisture
- Collar is X-Ray, CT and MRI lucent
- Easy to apply and secure
- Tracheostomy opening in front, allows additional breathability and gives access to the trachea, pulse, and bandaging in case of an emergency or medical issue.
- High-density two-piece construction foam with hook and pile closure provides maximum support
- Restricts movement of Head to immobilize the cervical spine
- Conformance to the shoulder allows increased stability and comfort
- WATERPROOF - enables individuals to bath or shower
- .
- This cervical alignment collar is comprised of a hypoallergenic, non-toxic cell foam material and is latex free

INDICATIONS :

Neck injuries, neck immobilization, neck spasms, cervical stenosis, Cervical Spinal Stenosis, tightening of the canal around the spinal cord, degenerative spine, spondylosis, cervical osteoarthritis, cervical radiculopathy, Degenerative neck vertebra.

SIZING:

Small, Medium, Large

LUMBAR SACRAL ORTHOSIS (LSO) SPINAL BRACE

Product Name	Lumbar Sacral Back Brace Lumbosacral Corset , LSO Back Brace
Item No.	62201-62206
Size	S , M , L , XL , XXL , XXXL
Color	Black or other customized color
Certificate	FDA , CE
Material	Polyester Velvet , Plastic Plate , Hook and Loop
Packing	Polybag per item into one carton

PRODUCT FEATURE:

- Firm but flexible back panel naturally conforms to patient lordosis while providing true structural support
- Easy location with 4 pull tabs and strong support
- Soft cushion lining is comfortable and breathable
- Hook-and-loop closure
- Ergonomically designed back panel provides a stable support for lumbar sacral
- INDICATION: Thoracolumbar vertebral fracture, osteoporosis, vertebral displacement
- It is a rigid LSO back brace with a very snug fitting posterior rigid panel and a comfortable anterior rigid panel.
- Lightweight and low-profile design with cool ventilated material for extra comfort and all-day wear
- Constructed of soft breathable fabric with contoured rigid A.B.S. anterior and posterior plastic inserts and contact closures
- Indicated for chronic or acute back pain, discogenic disc disease, post-surgical stabilization, spinal stenosis, herniated disc, stable non-displaced spinal fractures (L2-L5), sciatica, spondylolisthesis, facet syndrome and general weakness of the lumbosacral spine
- HELPS STABILIZE your thoracic vertebra to your sacroiliac (SI) joint , offering relief for a variety of conditions and injuries, including ruptured, protruding, or slipped discs (herniation), scoliosis, spinal narrowing, facet syndrome, weakness of the lumbosacral region, spondylolisthesis, and sciatic neuritis.

SIZING:

Small, Medium, Large, X-Large, XX-large, XXX-Large

THORACO LUMBAR SACRAL ORTHOSIS (TLSO) SPINAL BRACE

Product Name	TLSO Back Brace , Thoracic Lumbo Sacral Orthosis Support Brace
Item No.	62401-62406
Size	S , M , L , XL , XXL , XXXL
Color	Black or other customized color
Certificate	FDA , CE
Material	Polyester Fiber , Aluminum Frame , Hook and Loop
Packing	Polybag per item into one carton

PRODUCT FEATURE:

- TLSO provides full-circumferential rigid support from the T2/T3 scapular thoracic region to the sacrococcygeal junction.
- It features rigid anterior and posterior panels, a telescoping sternal Y-Bar, and dual lacer compression pads.
- Easy application with dual side pulls and adjustable for all-day wear
- Comprised of breathable Airmesh for maximum comfort
- Closure system ensures easy application and a snug, rigid fit
- Soft breathable fabrics are used for a lighter, cooler, more comfortable fit
- TLSO is designed to provide motion restriction for the thoracic and lumbar regions
- The posterior extends from the sacrococcygeal junction to just inferior of the scapular spine with tongues providing lateral strength.
- The Anterior extends from the symphysis pubis to the sternal notch to restrict forward flexion and encourage proper posture.
- This user-friendly TLSO allows you to restrict the thoracic vertebra through precise compression with its unique closure system.
- All these features allow for the patient to control and relieve acute pain often associated with anomalies of the spine such as osteoporosis, compression fractures, spinal stenosis, strain, and excessive kyphosis, burst fractures, herniated or bulging discs, facet syndrome, post-op spinal stabilization.
- Rigid anterior and posterior panels restrict forward flexion and trunk rotation
- The alloy can be bent and custom fitted to the desired angle

INDICATIONS:

Lumbar disc injury Osteoporosis Disc herniation degeneration Postoperative discectomy IDET procedure Spondylolisthesis Postoperative fusion Spinal Stenosis Compression Fractures Scoliosis

SIZING:

Small, Medium, Large, X-Large, XX-large, XXX-Large
